

Satellite radio provides variety and quality that are not available elsewhere. I pay for these services and it should not be up to the National Association of Broadcasters to dictate what I'm am permitted to listen to. I respectfully urge the FCC to reject the NAB's petition 04-160 and to support XM's ability to provide the kind of programming that you demand and deserve. This goes against everything that is American. If a company can offer a citizen a service and that citizen is willing to pay for that service then it should be no one else's business. The exact same freedom has been taken away already for Satellite TV and it is just plain wrong. Who are they/you to tell me what and where I should get my information from. It's like trying to tell me that I can't go to the Walmart in another city because the Walmart or convenient store in my city might lose out on my purchase. Please I urge you to not support such Un-American ideas. Thank you
